Answered: 12   Skipped: 0

ANSWER CHOICES	RESPONSES	
Full support	100.00%	12
No support	0.00%	0
It is not necessary	0.00%	0
TOTAL		12

Q8 How will you facilitate the access of people from NGOs to these courses?

Answered: 10   Skipped: 2

#	RESPONSES	DATE
1	To working with them and explain them about the accessebility them to courses	11/9/2020 9:05 AM
2	through the online cources	11/5/2020 1:13 PM
3	Open and free	11/5/2020 12:42 PM
4	online and offline	10/27/2020 8:09 PM
5	Within the framework of the project, the partners of the Academy are social entrepreneurs, NGOs, the Nur Otan political party, the Ministry of Labor and Social Protection of the Population of the Republic of Kazakhstan and activists (community) with disabilities. Considering the above, the Academy already has experience in organizing joint events (for example NAD KZ) and involving them in piloting educational modules.	10/27/2020 2:40 PM
6	Thru online courses, via information services	10/27/2020 12:10 PM
7	Access to the courses is provided by sending official information letters to NGOs (by e-mail and whatsapp), as well as by posting information in social networks and the media	10/26/2020 1:01 PM
8	We can make it easier for people from NGOs to access these courses through social media, the DISIDE project platform, our website.	10/22/2020 9:44 PM
9	The access of people from NGOs to these courses is implemented by the following points: social network; website of the university; the Moodle platform of the university and Individual approach to each person.	10/22/2020 3:00 PM
10	Invitation to courses and organaise the meetings and trainings	10/13/2020 2:30 PM

Q9 What measures have you planned to maintain the sustainability of the project after the completion of European funding?

Answered: 10   Skipped: 2

QUESTIONNAIRE REGARDING THE IMPLEMENTATION OF THE DECIDE MODULES

#	RESPONSES	DATE
1	Administration of the institute will fund Responsible person for the Support centre Centre for disability and contolling them for the future realization of the project.	11/9/2020 9:05 AM
2	Annual participation on Library Workshops in Nur-Sultan and Kazakhstan disseminating the project information	11/5/2020 1:13 PM
3	all measures needed to maintain sustainability	11/5/2020 12:42 PM
4	Inclusion will be a part the whole academic process at the university	10/27/2020 8:09 PM
5	1. Tracking the frequency of workshops / short courses for government officials with disabilities 2. Using the Cabinet for inclusive education within the framework of the Institute for Professional Development of the Academy. The cabinet was named after the DISIDE project. 3. Sharing the Assistive Technology Room, located in the Academy library, with representatives of social entrepreneurship, Nur Otan party, ministry and community (mentioned above). The dedicated corner was built within the framework of DISIDE project co-financed by the EU Commission. 4. Participation in the annual conference of NAD, invitation of experts to Development Day of the Academy	10/27/2020 2:40 PM
6	Creative information center for students with disabilities	10/27/2020 12:10 PM
7	The academic discipline "Psychological support of inclusive education" is included in the curricula of full-time and part-time forms of education for "Psychology" specialty and "Pedagogy and Psychology' specialty. The Advanced Studies Institute of KRU has included this course in the plan of Continuous education. Sustainability is also ensured by regular and systematic dissemination on the results of the project through the media.	10/26/2020 1:01 PM
8	Before the launch of this project, our Society "Mushtoq ko'zlar" was only involved in providing financial assistance, we had a staffing problem and a methodology for educating children with disabilities. As part of this project, we have now begun to provide not only financial but also spiritual support to our children with disabilities. In other words, English language lessons are being taught to our children within the framework of this project. We have difficulties conducting these lessons during the pandemic. because each child needs an individual approach, this is difficult through a zoom platform. We plan to launch a system of preparing our children for higher education in the future, using the methodology created under this project.	10/22/2020 9:44 PM
9	In the implementation of each project, special attention should be paid to ensuring its sustainability, i.e. the results of the project are to be used after completion of its EU funding. It is advisable for the project team to think in advance and identify potential sources of funding in the future. And so, to maintain the sustainability of the project following the completion of European funding, the following steps will be taken: 1. Financial aspect. 2. Organizational aspect. 3. Business continuity. 4. Multiplicativity. Financial sustainability is determined by the possibility of further funding after the end of the project. This is where the project team can seek various acceptable funding sources. This can be either an agreement with the business sector in need of services / products provided as a result of the project, or a guarantee of local government on the allocation of budgetary funds, or financial resources of the university itself. The organizational aspect involves the preservation of infrastructure and resources, both human and intellectual. As an example, we can cite the methods developed during the project, approved educational programs, or licenses / copyrights for intellectual developments that allow the production of any products and services. Business continuity is seen as the viability of the project after funding is complete and the potential to implement the project's intended tasks and functions after the end of the project. The multiplicativity of the project means that the control effects have the property of multiplication, not addition. Multiplicativity should be understood as the multiplication of the efficiency of the system due to rational management actions (introduction of new technologies, know-how, improvement of the motivation system, leadership style, creation of new organizational structures, etc.). It can also be reflected in the impact of the project on the activities of the expanded group of target consumers and other stakeholders.	10/22/2020 3:00 PM
10	to create modules and institutionalise in public administration and social service system	10/13/2020 2:30 PM
