

## **Principles of organization of psychological and pedagogical support for students with special needs at HEI**

During organizing psychological and pedagogical support for students with disabilities at HEI, it is necessary to be guided by the following principles:

- The principle of compliance of the sociocultural educational environment with the student's adaptive capabilities;
- The principle of ensuring equal opportunities for students in the process of training;
- The principle of cooperation and interaction, reliance on an integrative (mixed) student group of people with disabilities and people without disabilities;
- The principle of relying on one's own purposeful activity of persons with disabilities in the vocational and educational field;
- The principle of continuity, consistency, complexity in providing psychological and pedagogical support.
